Allowable Subject Matter

Claims 1, 3 – 7, 9 – 18, 20 – 29, 31 – 33, 35 – 37, 39 – 46 and 48 – 54 are allowed.

The following is an examiner's statement of reasons for allowance:

The above mentioned claims are allowable over prior arts because the CPA (Cited Prior Art) of record fails to teach or render obvious the claimed limitations in combination with the specific added limitations, as recited in independent claims 1, 18, 29 and 46 (& associated dependent claims).

The prior arts fail to teach or suggest a method for accessing discrete data wherein the data following the file header comprises one or a plurality of frames, in which each frame comprises a header, a data block and a residual block, wherein the remainder of the difference between the number of bytes of a frame and the number of
